LinkedIn: Cyril Martin — GitHub: cyrilmartin08 —

LeetCode: u/Phil_4_13

Skills

Languages: Java, Python, C, C++

Technologies: React Native, SQL (Basic), Machine Learning (Basic), Data Visualization (Tableau, Power BI)

Tools: Git, GitHub, Postman, Visual Studio Code, Firebase

Soft Skills: Leadership, Teamwork, Problem-solving, Public Speaking, Communication

Education

ISE — Cambridge Institute of Technology, Bengaluru

CGPA: 8.5 (Up to 4th Sem)

XII (PUC) — St. Joseph's PU College, Bengaluru

89.5% — 2022

X (ICSE) — New Millennium School, Bengaluru

94.4% — 2020

Experience

Contributor — GirlScript Summer of Code [Remote]

(May 2024 - Aug 2024)

- Contributed to open-source projects on GitHub, merging 1+ pull requests and raising 8+ issues.
- Collaborated with global developers, improving code quality and adhering to best practices.

Academic Projects

Proximity Alert System

(Jan 2023 – Mar 2023)

- Developed an IoT-based system using Arduino to detect and alert based on proximity.
- C programming was utilized to code and control the system's functionality.

Chaat Menu

[Live Link]

- Designed a user-friendly web application for selecting food options and generating receipts.
- Integrated a real-time UPI payment feature with a live QR code for seamless transactions.

CITech Buzz – Notification App

(Oct 2024 – Dec 2024)[GitHub Link]

- Developed a mobile app with React Native for real-time notifications in academic institutions.
- Implemented real-time data synchronization to update users on academic and extracurricular events.

Positions of Responsibility

Core Team (Dev Team) — GDSC, CIT

(Dec 2023 - June 2024)

- Organized hackathons and tech sessions for 350+ students on emerging technologies and software development practices.

Cultural Coordinator — CIT

(Apr 2024 - Present)

- Coordinated and managed intra-college and inter-college cultural events.

Certifications

Postman API Fundamentals (Postman)

Intro to Machine Learning (Kaggle)

Java (Basic) and SQL (Basic) – HackerRank

Build a Natural Language Processing solution with Azure AI Language (Microsoft)

Introduction to Generative AI (Google)

Digital Marketing certificate (Google)
